DIARY NOTES

DD/S

5 July 1956

25X1A9a

1. Met with Messrs. Saunders [redacted] to discuss the installation of the "Financial Property Accounting System." I told them that I felt we must have a system but that it should be the simplest one which could be devised to meet our needs and at the same time place a minimum burden on field stations particularly. Asked them to draft a policy statement which I could sign to this effect.
